ELCOT

ELECTRIC

We offer our stylish Elcot towel radiators in a range of beautiful, contemporary finishes. Polished stainless steel, Polished brass, Brushed stainless steel, Matt black, Brushed Brass and Rose Gold

Supplied with all fixtures and fittings. All components use British standard fittings.

Factory sealed with a specific fluid that ensures homogeneous heating on the whole radiator surface.

Available in lengths of 450 and 630mm.

The extra low voltage and 12v transformer means they can be installed in wet rooms, shower areas, near bath tubs and wash basins.

Manufacturers
