

TOWELRADS BELGRAVIA

BELGRAVIA

Elevate your bathroom with our exquisitely designed round towel rails, an embodiment of luxury that ensures your towels remain toasty warm, independent of your central heating system. Immerse yourself in the indulgence of wrapping yourself in a warm towel after every shower, offering both comfort and convenience.

The extra low voltage and 12v transformer means they can be installed in wet rooms, shower areas, near bath tubs and wash basins.

Available in Polished Chrome, Brushed Stainless Steel, Brushed Brass, Brushed Bronze and Brushed Copper

FEATURES AND BENEFITS

- **Dry Electric:** Our round towel rails operate on a dry electric system, ensuring efficient heating performance that doesn't compromise safety.
- **Safe Extra Low Voltage:** We prioritise your safety with the utilisation of extra low voltage technology, making these towel rails a secure addition to your bathroom.
- **IPX5 Rated:** Boasting an IPX5 rating, these towel rails are resilient against water ingress, making them ideal for areas with high humidity.
- **Sturdy 304 Grade Stainless Steel:** Crafted from robust 304 grade stainless steel, these towel rails offer durability and an enduring, elegant finish.
