

TOWELRADS DUNE

Meet our cutting-edge Electric Radiator with a sleek double heating core and direct Wi-Fi control, no gateway needed. Its modern design seamlessly fits any space, offering efficient heat exchange and gentle, non-drying warmth in a slim profile.

Control your comfort remotely with the Deltacolor Comfort app, tailoring temperatures room by room. Set intelligent heating schedules that match your lifestyle and monitor energy consumption. With a double heating core and touch control, it provides Comfort, Eco, Frost, and Sleep modes, and even works with Amazon Alexa and Google Assistant.

Additional features include an open window detection sensor, Smart Lock control, and consumption monitoring. Available in three power options and simple installation, it blends advanced technology with user-friendly design.
