

# TOWELRADS EDEN

Upgrade your heating with our modern WiFi-enabled Eden Radiator. This white, curved radiator combines style and function.

With a digital electronic thermostat, it offers weekly programming and a pilot wire for six commands, including WiFi and direct connection.

Easily control it remotely via a tablet or smartphone, ensuring energy savings and efficient heating. The digital screen includes a behavioral indicator, and there's an open window detector for frost protection. Plus, a child safety feature with a keypad lock prevents settings changes.

Manufacturers Warranty

Electric Only

Available in White

## FEATURES AND BENEFITS

- **Remote Control:** Control your radiator via smartphone or tablet.
- **Energy Savings:** Optimise energy use through the app.
- **Prolonged Heat:** Genuine ceramic block ensures lasting warmth.
- **User-Friendly Display:** Digital screen with behavioral indicator.
- **Frost Protection:** Automatic mode when windows are open.
- **Child Safety:** Keypad lock for settings security.
