

TOWELRADS PEGASUS

This Pegasus, with its sleek aluminum body, straight shape, and clean white colour, is a top-notch heating solution for your home. Its digital thermostat, complete with weekly programming and a versatile pilot wire with 6 orders, ensures you have precise control over your heating needs.

This efficient radiator guarantees even and rapid heat distribution, creating a cozy environment that lasts. The digital screen and behavioral indicator provide user-friendly monitoring, while the open window detector activates automatic frost protection when needed. With Comfort, Eco, Frost Protection, and Sleep modes, you can customise your comfort, and the child safety feature ensures peace of mind by preventing any unintended adjustments to the settings.
